

## **Novitech Group and the University of Pavol Jozef Šafárik in Košice have signed the Memorandum of Understanding**

On 25. March 2019, the President of the Novitech Group, Mr. Attila Tóth and the Rector of University of Pavol Jozef Šafárik in Košice, Mr. Pavol Sovák have signed a Memorandum of Understanding between the two institutions.

By signing the memorandum, both parties have declared their commitment to intensify the cooperation in research and development in the field of digital enterprise.

The president of Novitech Group, Mr. Attila Tóth said: „Cooperation on digital enterprise research is based on its new understanding, which changes the ways technology is used in a company. Technologies are not the mere groupings of different technical elements, software and services. Digital enterprise is an integrated digital knowledge base of current and future objects and processes and it is the precondition for consistent and permanent knowledge innovation about the factory. “

The Novitech Group has offered the internship possibilities to the PhD students in this area as well.
